

Research Intern

What is Rev1 Ventures?

Rev1 Ventures is an investor startup studio that combines capital and strategic services to help startups scale and corporates innovate. Based in the Midwest, and in a top city for scaling startups, Rev1 aligns innovators and founders with corporate and research partners to access customers and markets, helping entrepreneurs build great companies. With a proven track record of identifying, guiding, and investing in high potential startups, Rev1 helps companies solve real problems for markets in need of real solutions. Rev1 has \$90MM in capital under management, providing a capital continuum from corporate and community partners, as well as Ohio Third Frontier. Rev1 has been named among the Most Active VCs in the Great Lakes Region for the past three years in a row according to PitchBook.

What's the role?

The **Contract Research Internship** will join the Columbus office on a part-time (10-20 hours/week) basis for a 3-6 month long internship with the Venture Acceleration team of Rev1 Ventures. The successful candidate will possess an understanding of the government contract and grant application process, particularly with the Department of Defense. This team member will research, organize, and help submit for potential government contracts and grants for companies working with Rev1. The intern will gain exposure to new and exciting technologies and a variety of innovative startup business models.

What You'll Do:

- Review and research contract and grant solicitations from Federal agencies, including but not limited to the Department of Defense (DoD), the National Science Foundation (NSF), and the National Institutes of Health (NIH)
- Organize opportunities and communicate specific requirements to Rev1 engaged and portfolio companies as well as the Rev1 executive management teams
- Analyze complex research requests to provide actionable recommendations and key findings
- Other research as needed

Who you are?

- You are a current graduate student
- Ideal candidate will have knowledge of military procurement processes such as government contracts
- You have a Science or Technology background
- You have a strong drive and the ability to self-direct, especially on multiple projects at any one time
- You are personable, engaging, and able to build relationships quickly and easily
- You are able to research, assimilate, and communicate complex ideas clearly and succinctly through your work
- You are a leader among your peers and think unconventionally

Interested candidates should email resume and cover letter to: careers@rev1ventures.com
