

HEALTHY ROSTER INC

SOFTWARE ENGINEER

WHO WE ARE

We are a startup located in Historic Dublin, OH. Our mission is to provide best-in-class mobile healthcare apps to simplify delivery of care, synchronize clinical documentation and improve care coordination for athletic trainers, sports medicine, orthopedics, physical therapy, and home health organizations.

Our team currently consists of fourteen full-time employees with five full-time developers. We work in an agile environment and take a very collaborative approach to our product development.

WHAT WE NEED

We are looking to find a team member who has an interest in growing along with us. The ideal candidate would have at least 3 years experience as a software developer and have a skill-set that matches some combination of the tech stack below. Current tech skills are great, but what really matters is finding someone who is willing to take on new challenges and cares deeply about their work and the product we build.

TECH STACK

- **C#**
- **ASP.NET MVC/Web API**
- **.Net Core**
- **AWS**
- **SQL Server**
- **Entity Framework**
- **Javascript (React, Angular, Vue, JQuery, etc...)**
- **Jenkins**

WHAT WE CAN OFFER

- Competitive Pay
- Flexible Work Schedule
- Stock Options
- Generous PTO
- Excellent Health/Dental/Vision coverage
- A Collaborative and Comfortable Work Environment
- Paid Membership to Mesh Fitness
- Conference Expense Reimbursements
- Good work/life balance
- Annual Ping Pong Tournament and other regular (optional) company outings
- Pet-friendly office space
- Great location right next to the newly developed Bridge-park area in Dublin

OUR INTERVIEW PROCESS

1. Send an intro email to shawn@healthyroster.com and include your resume
2. We'll respond and set up an initial call or coffee meeting (whichever is more convenient for you)
3. Paid technical assessment (We value your time)
4. In-person meeting to discuss technical assessment
