

Title: Directors, Venture Acceleration – Life Sciences. (two positions)

Job Description:

Identify and manage business opportunities through the review, documentation, tracking and reporting of start-ups specifically within the life science sector, including but not limited to therapeutics, medical devices, diagnostics, imaging and medical practice. Perform market research, industry analyses and related due diligence with particular emphasis on pre-licensed life sciences technologies from research universities and hospitals. Identify and curate grant opportunities for life science technologies related to therapeutics, medical devices, and advanced materials; Create reports for investors, management and serve as a venture advisor for assigned clients; analyzing, and providing program and investment support to those concept, seed and start-up stage companies across several dedicated capital funds; Assist with due diligence for investment opportunities, coordinate closing and post-closing activities, ongoing portfolio company engagement. Compile online sources from relevant databases to support recommendations and insights; Conduct in-depth interviews with, but not limited to, industry experts, engaged companies, portfolio companies and their competitors, or anyone relevant to our research.

Requirements

- Master's degree in Technology Management, Biology, Finance, Entrepreneurship, Economics, or related fields.
- Undergraduate degree in life sciences or related fields.
- Two years' related experience in biotechnology or pharmaceutical industry that includes analysis of market viability of pharmaceutical products. Experience may be before or after graduate education.
- Demonstrated ability to collect and analyze data and prepare cogent written materials on development of pharmaceutical products either by submission of graduate level research or analysis of a hypothetical project related to biotechnology or biomedical products.

Interested applicants should send a resume to Wayne Embree, Executive Vice President, Investments & Venture Acceleration at wayne@rev1ventures.com.
